

PARSHURAM KUMAR

Web Developer | +91 62027 31971 | pkumarskp4@gmail.com | Ahmedabad, Gujarat, India

Portfolio: <https://pkumarskp.github.io/>

PROFILE SUMMARY

Experienced Web Developer with 4.5+ years of full-stack experience in building modern web applications. Skilled in Laravel, ReactJS, Angular, PHP, and JavaScript, with strong experience in Git-based workflows, payment gateway integration, RESTful APIs, and polished SaaS, marketplace, and CMS solutions. Proven record of delivering production-ready systems for both enterprise and consumer clients.

TECHNICAL SKILLS

- Laravel, PHP, MySQL, REST API design
- ReactJS, Angular, JavaScript, jQuery, HTML5, CSS3
- Git, GitHub, GitLab, version control workflows
- Payment gateway integration, wallet systems, secure authentication
- CMS / admin panels, ERP / SaaS applications, marketplace platforms
- WebSocket chat, real-time notifications, client-facing portals

PROFESSIONAL EXPERIENCE

Web Developer | Silicon Valley Infomedia Pvt Ltd

Nov 2021 – Present

- Delivered enterprise web applications using Laravel, ReactJS, Angular, PHP, and JavaScript.
- Implemented secure payment gateway integrations and wallet-based transaction workflows.
- Designed and maintained RESTful APIs supporting web portals, mobile clients, and admin dashboards.
- Established Git branching, code review, and release processes for collaborative development.
- Partnered with clients to gather requirements, share technical recommendations, and deliver production releases.
- Provided ongoing maintenance, performance improvement, and quality support for active platforms.

SELECTED PROJECTS

ExcellentNumbers.com: Built a premium phone number marketplace with PHP and JavaScript, delivering advanced search, reservation, checkout, and listing experiences.

HelloHungryMeals.com: Created a Laravel API-based food delivery portal for diet meal orders with menu management, order flow, and customer inquiry support.

ScrapMart.co.in: Developed a scrap trading marketplace with Laravel and Angular featuring supplier/buyer dashboards, product listings, order management, and market updates.

PutPocketi.com: Implemented loyalty and business management workflows in a PHP platform with secure payment flows, wallet support, and enterprise marketplace features.

PranamEngineering.com: Delivered a fully managed Laravel CMS and admin panel for industrial engineering services with content publishing and lead capture tools.

Portal.Voip.us: Built a Laravel portal for VoIP services, highlighting communication packages, virtual numbers, SMS, and cloud-based service workflows.

WebSealInfo.com: Designed a personal Laravel portfolio site to showcase services, technology expertise, and digital product offerings.

EasySchoolERP.online: Developed a school management ERP using Laravel and ReactJS with attendance, fee management, analytics, and secure user portals.

VyaparManager.in: Built a business management platform using Laravel and ReactJS for invoicing, inventory, payment tracking, and GST-ready reports.

VoiceOfMiddleClass.in: Created a content publishing platform with Laravel and ReactJS for articles, user registration, and community storytelling.
